Regular/full-time

Manitoba Justice
Legal Aid Manitoba, Corporate and Strategic Services
Winnipeg MB

Advertisement Number: 41503

Salary(s): IS3 \$70,281.00 - \$91,521.00 per year

Closing Date: August 25, 2023

The Manitoba government recognizes the importance of building an exemplary public service reflective of the citizens it serves, where diverse abilities, backgrounds, cultures, identities, languages and perspectives drives a high standard of service and innovation. The Manitoba government supports equitable employment practices and promotes representation of designated groups (women, Indigenous people, persons with disabilities, visible minorities).

Employment Equity is a factor in selection for this competition. Consideration will be given to women, Indigenous people and persons with disabilities.

An eligibility list may be created for similar positions and will remain in effect for 12 months.

Conditions of Employment:

- Must be legally entitled to work in Canada
- Satisfactory Criminal Record Check, Child Abuse Registry Check and Adult Abuse Registry Check
- Satisfactory Enhanced Security check – Level 4

Qualifications:

Essential:

- A Post-Secondary degree in Information Technology or Computer Science or an equivalent combination of education/training (such as an advanced diploma or certificate in Information Technology/Computer Science) and related experience may be considered
- Several years experience in a work environment with designing and programming web based applications in Java by using Apache Struts Framework
- Experience in systems analysis and design in a multi-platform environment
- Experience with relational databases and SQL
- Experience in trouble shooting applications
- Strong analytical and problem solving skills
- Ability to work in a team environment
- Ability to manage multiple competing priorities in a fast-paced environment
- Ability to take initiative and work with minimal supervision
- Strong written communication skills
- Strong verbal communication skills

Desired:

- Experience building software with Apache Ant
- Experience with Java Frameworks Spring/Spring Boot
- Knowledge of Debian GNU/Linux distribution
- Experience with revision control software
- Knowledge of project management techniques

Duties:

The Application Developer is responsible for the analysis of business requirements and the design of information systems to meet those requirements. The incumbent acts in conjunction with, and under the direction of the Senior Application Developer in a team setting on tasks associated with developing, testing, implementing and supporting province-wide systems. In addition to new systems development work, the incumbent is assigned responsibility (enhancement and operational) for one or more installed applications.
